Undergraduate computer science engineer completing the third year of a bachelor's degree.I love to play with web technologies and create great user experiences. I'm a Full Stack Developer and interested in creating scalable web apps with amazingly great UI/UX. I know the importance of latest tools and keep myself up to date with the latest technologies and concepts. I support Open Source software and frequent Open Source contributor on github. I like working on scalability, performance, design and testing leading to better applications.
